

Effective Performance Management for Teachers and School Staff

Secure the knowledge, understanding and skills to undertake the role of appraiser and support improvement through effective objective setting.

Course Outline

This new half-day course is relevant to anyone who has appraisal line management responsibilities. This is an activity driven training session to help fulfil this statutory requirement.

Description

The session will be a blend of information delivery and activities to secure understanding of the purpose of appraisal and the role of the appraiser.

The link between the setting of meaningful objectives, performance related pay progression and school improvement

By the end of the course participants will:-

- Understand the context of performance management
- Recognise the importance of performance management within school improvement
- Understand the performance management cycle
- Be equipped for evidence based reviews and setting appropriate objectives
