# Teaching Assistants:
## Get to Grips with Computing in the Primary Classroom

**Educator Solutions**

**An interactive, fun session that will have you ready to dive into computing back at school.**

### Course Outline

You will gain an overview of programming and what resources best support these activities through hands on practical examples. Have a clear understanding of the role of the teaching assistant as a supporter for groups or individual pupils within computing activities and how these technologies can be used safely.

### By the end of the course participants will:-

- widen their knowledge and understanding of the computing programme of study
- familiarise themselves with freely available computing resources and how these link to activities within the primary classroom
- be made aware of the risks imposed through the use of these technologies and how to keep children safe while using them.

**Phase**
Primary

**Audience**
TAs and HLTAs

**Trainer**
Jill Duman

**Date**
14/10/2016

**Time**
09:00 am - 12 noon

**Venue**
Norwich Professional Development Centre
