

Norfolk Mathematics Conference 2016

'Making Numbers'

**Educator
Solutions** 

This conference is a unique opportunity for delegates to hear from national keynote speakers and to experience a variety of workshops covering mathematics education from EYFS to KS4.

Our first keynote speaker is Dr Sue Gifford.

Sue is a Principal Lecturer in mathematics education at the University of Roehampton. She previously worked in London as a primary teacher and mathematics consultant. She has published and contributed to books and articles on primary and early years maths education and more recently on dyscalculia and mathematics difficulties.

Our second keynote speaker is Ems Lord.

Ems is the Director of NRICH. She previously led one of the country's largest Mathematics Specialist Teacher Programmes. She has taught mathematics across the key stages, from Early Years to A Level Further Mathematics. Her previous roles include supporting schools as a Leading Mathematics Teacher, local authority consultant and as a Chartered Mathematics Teacher.

An exhibition from a range of companies and organisations displaying their products and services is accessible at the start of the conference and throughout breaks.

Phase

Primary and Secondary

Audience

All staff

Trainers

Alison Borthwick
Anna Hogg
Rose Keating
