

Improving Mathematics Programme for Primary Teachers

**Making Mathematics Teaching Count.
A 3 day programme to deepen subject
knowledge.**

Course Outline

This programme will dive deep into mathematical subject knowledge to promote understanding for all ensuring greater outcomes for the mathematicians of the future. To inspire confidence in participants we will be using the concrete pictorial abstract approach and sharing educational research around misconceptions of the big ideas in mathematics.

By the end of the course participants will see and understand how to:

- gain a deeper subject knowledge of mathematics
- develop their understanding of how children learn mathematics today
- know how to upskill children's mathematical thinking to meet the aims of the National Curriculum
- discover how to create conceptual understanding through the teaching of addition, subtraction, multiplication and division.

Phase

Primary

Audience

Subject Leaders,
Class Teacher,
NQT

Trainer

Anna Hogg

Dates

18/10/2016

09/11/2016

07/12/2016

**Delegates must
attend all 3 sessions**

Time

9:30 am – 4:00 pm
