Primary Computing Package

Educator Solutions

Our Primary Computing packages combine in-school INSET, centre based CPD, workshops for pupils, consultancy, and twilight networks. Our packages enable schools to have a sustained programme, which supports whole school aims and plans.

Staff CPD

We run regular and ongoing professional learning at our centres and can also provide bespoke CPD in your setting. Our professional learning programmes focus on equipping teachers with specialist skills and knowledge that have direct applications in the classroom. Details can be found at s4s.norfolk.gov.uk

Consultancy and Advice

Every package includes a number of in-school or centre-based consultancy sessions offering one-to-one support in a specific area. For details of the range of sessions on offer, please see additional sheet.

Pupil workshops

These practical workshops take place at the Norwich PDC or at the Kinesis Centre (Norwich City Football Stadium). Two options will be available: Minecraft EDU or Robotics.

Twilight Network Meetings

Each term, we will host a two hour twilight network meeting aimed a supporting Computing Subject Leaders. These will run in Norwich and Kings Lynn.
