

Making Maths Count / Count Us In

How to enhance the development of number skills and improve young children's knowledge and understanding of early mathematical concepts.

Course Outline

A two day practical exploration of how to enhance and develop the mathematical environment, develop creative and practical approaches to maths in the early years and improve the outcomes for children in Early Years Maths.

It is essential that the participant attends both days as the start of day two will be to feedback and share the implementation of ideas from day one with the other participants.

Outcomes

- To recognise the elements that constitute highly effective early numeracy approaches
- To take away key approaches that you can use within your school or setting to enhance your early numeracy strategies that will support the development of skills, knowledge and understanding
