

Mathematics Toolkit: Geometry

“It is the glory of geometry that from so few principles, fetched from without, it is able to accomplish so much.”

Sir Isaac Newton

Course Outline

A full day course which aims to secure understanding of progression in geometry, consider approaches to supporting learners to develop deep conceptual understanding of geometry and explore opportunities for developing fluency, reasoning and problem solving skills in geometry.

By the end of the course participants will:-

- experience how activities are broken down step by step to include progressive deep learning and assessment opportunities for geometry
- explore topics through real life problem solving and discussion, allowing participants to investigate the properties of geometry.

Phase

Primary and Secondary

Audience

All staff

Trainer

Anna Hogg

Date

26/04/2017

Time

9:30 am – 4:00 pm

Venue

Norwich Professional Development Centre

Cost

£165 per delegate

This course can be delivered in clusters or to individual schools as a twilight.

Please contact enquiry@educatorsolutions.org.uk to discuss and plan cluster options.
