 Nursery Teachers
 Senior Leaders

Training provider

We Can Do Business

Cost per delegate

£90

Are you ready for the 30 hours?

This 3 hour workshop will help you to understand the need to develop a sustainable business model in early years, considering a range of external and internal factors.

Session outline:

- To ascertain current models of delivery within settings
- To enable participants to understand the critical success factors in maintaining a sustainable early years business model
- To consider the economic and environmental factors in current and future early years offers of provision and use this to manage your business model more effectively
- To consider your own business model and create a plan for reviewing and (possibly) changing this to meet the current economic environment, specifically around the 30 hours

Learning Objectives

- Understand the factors affecting the profitability of an early years setting and how this impacts on the bottom line and the front line service
- Understand the need to constantly review your provision in terms of staffing, overheads, premises and occupancy using effective monitoring systems
- Understand the need to work in a more flexible way to achieve sustainability in your business model and to meet the needs of parents and children who access, or potentially will access, the service
