

Primary English Toolkit: Spelling

Improve your practice in teaching spelling and unlock children's ability to write fluently and accurately.

Course Outline

This course gives delegates the opportunity to get inspired by, explore and take back to their classrooms a range of fun, practical and systematic approaches to teaching children to spell. Delegates will have the opportunity to not only consider how we can best teach children to understand spelling rules and conventions, but also how we can go on to support children to practically apply them in their independent writing as well as how we can support children to tackle National Curriculum word lists and personal 'spelling gremlins'.

By the end of the course participants will:-

- be equipped with the most effective strategies to teach spelling
- leave with fun, practical activities and ideas to promote confident, independent spellers
- have an overview of a systematic approach to teaching spelling
- understand the spelling requirements in the national curriculum.
