

Maths Café

The maths café course enables primary teachers to plan and deliver a long-term programme that enables all parents and carers to confidently support key aspects of their child's learning and development in mathematics

Course Outline

Provides the delegates with a programme of carefully designed, enjoyable mathematical activities and opportunities for families which can be provided by the setting or school.

By the end of the course participants will:-

- understand how to implement the maths café programme so that all families can benefit
- be able to plan and deliver a variety of family learning opportunities in maths café sessions
- be confident in helping all parents to support and develop their child's mathematical achievements
- begin action planning for maths cafés with a secure understanding of how to evaluate impact on pupils' outcomes and school improvement
- provide range of mathematical activities that could be used in a maths café.

Phase

Primary
