

# Let's InterGREAT!

## Embedding EAL Excellence.

### Course Outline

This three-day course will enable you to achieve accelerated progress for all EAL children in your school. You will gain an in-depth knowledge of EAL pedagogy, strategies for maintaining the engagement of pupils across the whole curriculum and how to make effective use of your classroom environment. Together, these skills will enhance your children's learning to become independent, successful and highly motivated learners.

### Comments from previous delegates:

*"I really enjoyed the day, and I'm very pleased that it has been about good practice that can be applied to all pupils, not just those with EAL."*

*"I enjoyed being taught how to explicitly teach the language structures and functions for e.g. in Maths lessons. A really useful course, great delivery too!"*

### By the end of the training participants will:-

- Experience a range of assessment tools available to inform practice, planning and to discern the difference between EAL and SEN
- Be confident in conducting accurate EAL assessments against the DfE Proficiency in English framework
- Explore how EAL pedagogy impacts on teaching and learning in their school
- Be equipped with a range of practical speaking and listening strategies they can apply in their classes

### Phase

Primary
