ICT Services Supporting Learning and Teaching

Norfolk Teaching with Technology Event

Delivering the ultimate learning experience using technology

Outline

We have joined up with Microsoft, Google and Apple education teams to bring you an event on making the best use of technology in your classrooms to improve the learning experience.

Discover more about using Microsoft Office 365, G-Suite for Education and Apple for Education within your schools

Hear from schools using the tools on their journey with implementation and the improvements it has had on learning outcomes.

Keynote from Education ICT Evangelist and Broadcaster - Russell Prue.

Exhibition area demonstrating technology, products and teachers CPD

Description

This event is our initiative to make Norfolk schools better informed of teaching & learning technologies, and how they can help prepare students with the right skills and training.

Our event is aimed at headteachers and IT leads and will give you access to leading professionals in primary and secondary education, as well as a keynote from the Education ICT Evangelist, Russell Prue.

Join us as we delve into the role of technology in the classroom (and equally, outside of it) to help improve teacher-student interactions and learning. We will also look at how the collaboration between primary schools and high schools can develop effectively using 'cloud' technologies.

Outcome

Why should you attend?

It's an amazing opportunity to try out the latest technologies in the classroom, talk to specialists about CPD development for staff, and how students can get the benefit of certifications to become job or college ready once they leave secondary school.

Audience

Head teachers, Teachers, ICT Subject Leaders, people with ICT responsibility within the school, business managers.
