for 36 hours
of CPD

TEACHERS SUBJECT SPECIALISM TRAINING PRIMARY MATHS

Subject
Training and
Enhancement in
Norfolk and
Suffolk

- Are you a primary teacher unsure about the new maths curriculum content?
- Are you a primary teacher looking to extend and deepen their maths pedagogy and subject knowledge?
- Are you a maths lead looking to lead the maths curriculum in your school?
- Are you an early years teacher looking to teach Yr 5 and 6?
- Are you a supply teacher looking to enhance their maths capability?
- Are you returning to teaching and looking for subject support?

If you answered **yes** to any of these questions then TSST is the course for you.

The course is charged at £450 for 8 Saturday morning sessions and a residential weekender, for a total of 36 hours CPD.

Following on from the withdrawal of funding from the Department of Education Encompass Teaching Alliance, Wymondham College and Educator Solutions have committed to providing a second year of TSST Primary. This working partnership will provide training to non-specialist maths teachers to enhance their maths pedagogy and subject knowledge.

You will complete a series of learning **modules in mathematics:-**

- The big ideas in Mathematics
- Conceptual Teaching
- Numbers and the Number System
- Calculations Strategies
- Algebra
- Fluency
- Reasoning
- Problem Solving
- Pattern
- Geometry
- Numbers in Context
- Proportionality

Alongside this you will receive training in the **best ways to teach mathematics** from leading experts and outstanding mathematics teachers. You will also have the opportunity to **share ideas and practice with colleagues.**

The course contains elements of assessment on both **mathematics subject knowledge and pedagogy**, and you will receive a Certificate of Mathematical Mastery at the end which will verify your new status as a teacher of mathematics.

An application, course content and timetable pack will issued upon request. Please contact:
Rob Machin at Wymondham College
machinro.staff@wymondhamcollege.org

The courses will be held at:-

Wymondham College

Saturday mornings
and a Residential
Weekender.
