

# Secondary EAL Health Check Course

**Do you have EAL pupils in your school?  
Here's a course that will help you check that  
what you have in place will deliver the best  
outcomes for your EAL pupils**

## Course Outline

The EAL Health Check will offer secondary schools the opportunity to review their existing policies and procedures to ensure they meet the needs of EAL learners.

The course covers the key aspects of admission, induction, assessment, resourcing, and monitoring progress. It will also offer essential strategies that work well with those new to English as a language, as well as more advance learners of English.

Proformas of documents such as EAL register and EAL profiles will be available for delegates and a follow up session in schools is encouraged in order to ensure that schools feel confident to bring about the best outcomes for their EAL pupils.

## By the end of the course participants will:

- Use the knowledge they have gained to identify and assess the language proficiency of their EAL population
- Be in a position to ensure the best outcomes for EAL pupils after reviewing their practice in schools
- Have access to an EAL audit and EAL action plan that will form the basis of change with their school.

## Phase

All schools

## Audience

Senior Leaders  
Middle Leaders, NQTs,  
Classroom Teachers  
Headteachers  
Deputy Heads  
Leadership Team  
Governors  
EAL
