

Summer Seasonal Specials

Available in July only (max 30 children)

Habitat Days

Visit the farm and campus grounds

On habitat days we will visit the farm, looking at the farm from a habitats perspective, trying to spot where wild animals have made the farm area their home.

In the afternoon we will have habitat activities such as pond dipping and mini-beast hunting.

Each child will also build simple bug hotels for you to take back to school!

Last year's habitat days were booked up very quickly – book soon to avoid disappointment!

Planned timings for visit 09.45 – 14.15
