

Speech and Language Therapy Training

For TEACHERS AND TEACHING ASSISTANTS

Delivered by East Coast Community Healthcare Speech and Language Therapy Service

Word Aware course: teaching vocabulary across the day across the curriculum

Word Aware is a structured whole school approach to promote the vocabulary development of all children. Focussed on whole class learning, the resource is of particular value for those who start at a disadvantage – including children with Developmental Language Disorder, Special Educational Needs and those who speak English as an additional language, but it will extend the word learning of all students. It is a fun and engaging way to promote spoken and written vocabulary for all children across your primary school. Course participants will have resources and ideas to apply immediately.
