Your class(es) will be taken on a journey around the cathedral by Matron Edith & Jack the dog and will learn about the lay out of a Christian place of worship inc. special furnishings, learning why the Bible and prayer were so important to her, and still are, for Christians today.

In school, she will tell her story with the help of a great selection of Christian artefacts & costumes, with the help of Jack, the puppet dog!

They will be able to enquire and think about why she was willing to die for what she believed in and how her faith and her love for others, including her dog Jack, helped her.

The children will also compare and contrast nursing and hospitals then and now and learn more about how care and healing were part of the teaching and work of Jesus, through drama and stories.
