

Secondary Science Teach Meet

Venue: Hartismere School

Date: 16th November 2017

Time: 4.15pm – 6.15pm

Summary

This after school twilight session provides you with a series of plant-based science experiments that have been designed to inspire the imagination of students, whilst meeting the current Key Stage 4 Biology curriculum.

Aims and Activities

- Learn how to propagate and grow a range of fascinating plants for use in the science classroom
- Learn new plant experiments and take achievable, practical projects back to school
- Explore a range of fun, curriculum linked activities based on gardens and the outdoor environment
- Opportunity to network with other teachers and technicians.

Key Stages targeted: Key Stages 3, 4 & 5

Cost: Free

Level of experience:

Suitable for Teachers and Technicians. Especially helpful for teachers and technicians who are new to biology or new to teaching science.

Venue: Hartismere School
Castleton Way, Eye IP23 7BL

CPD Provider: RHS
