

Finding Solutions: A Coaching Approach to Better Behaviour

Course Outline

Coaching is shown to be one of the most effective approaches to transferring skills into effective practice.

This course will introduce delegates to a solution focused coaching approach. They will understand what it is and why it is such a powerful method to bring about long-term positive changes in pupils' behaviours at a whole class or individual pupil level.

There will be opportunities to practise the skills of coaching to ensure delegates go back to their schools confident and equipped to add this strategy to their behaviour management toolkit.

By the end of the course participants will:-

- know what coaching is and why it impacts positively on a range of outcomes
- understand the key features of coaching conversations such as scaling techniques
- practice coaching conversations to build knowledge and confidence in the coaching approach
- have a variety of coaching 'tools' which they can put to immediate use in their classrooms to promote positive behaviour
