

# Getting it right: Collaborative KS1 Mathematics Moderation

**Ensure your school is submitting accurate data. This is your chance to be confident of your teacher assessment in mathematics in a structured supportive environment.**

## Course Outline

With plenty of opportunities for discussion, delegates will benefit from the chance to compare their judgements with teachers from other schools to develop a collective understanding and consistent approach as well as take advantage of the mathematics subject specialist, who will be at hand to answer any questions.

## By the end of the course participants will:-

- leave more confident they can accurately apply the framework across children's mathematics work;
- experienced structured and supportive moderation;
- know which aspects they may need to develop further;
- have identified practice from other schools that may be of benefit.

## Phase

Primary

## Audience

Senior Leaders  
Subject Leaders  
Classroom Teacher  
NQTs

## Trainer

Rebecca Crabtree  
Educator Solutions Associate

## Date

15/03/2018
