Beginning Datalogging

Educator Solutions

A one day course in using dataloggers across the programs of study.

Course Outline

Dataloggers are a powerful tool in supporting learning in science investigations and they are specifically included in the statutory programmes of study.

This course ensures that delegates will be confident in setting up and using dataloggers. It will then explore where dataloggers can be used effectively in teaching science, and delegates will leave with a bank of suggested investigations.

By the end of the course participants will:-

- use dataloggers effectively in their teaching
- know where dataloggers are best used in the POS
- have a bank of investigations using dataloggers

Phase
Primary

Audience
Teacher, NQT, Returners to Teaching, Subject Leader

Trainer
Kevin Blogg

Date
09/02/2018

Time
09:00 am - 12:00 noon

Venue
Norwich Professional Development Centre

Cost
£90 per delegate

Course Ref
TLS-0218-T017
