

Meeting the Mathematics Challenge through Mastery

We are delighted to welcome Dr Vanessa Pittard as she leads an event focussed on Meeting the Mathematics Challenge through Mastery.

Course Outline

As part of Oxford School Improvement, Educator Solutions and Oxford University Press are delighted to be working with Dr Vanessa Pittard, Independent Education consultant

The session offers the opportunity to attend a full day of professional development, looking in detail at:

- Mastery, why it's important?
- How to lead mastery well?
- Planning and Teaching of Mathematics with a focus on the Big Ideas.

Vanessa Pittard has worked for the DfE for the last 6 years, more recently leading policy reforms on mathematics and STEM education. Vanessa now works as an independent educational consultant offering extensive experience, expert advice and knowledge linked to curriculum, qualification change, pedagogy and mastery as well as education policy development. Vanessa is passionate about using her PhD and academic background in cognitive psychology to underpin her approach to education and deep commitment to evidence based strategies and interventions.
