

Norfolk Healthy Child programme – 5-19 Pathway event

We have **re-developed** our 5-19 Pathway, with input from stakeholders, services users and our own staff. This will enable us to improve health outcomes for children and young people in line with public health outcomes and by targeting children and young people identified as being most at risk of not reaching their full potential.

We would like to share this pathway, which is being offered to young people aged 5-19 years, with you.

Following the stakeholder events that we held throughout the county during October and November last year, we are holding some **further events** this year. This will give those who were unable to attend previously the opportunity to hear about our redesigned pathway.

We would like to invite you to attend our event:

Date:	Thursday 22 February 2018
Venue:	Second Floor Meeting Room The Royal Assembly Rooms Albert Square Great Yarmouth NR30 3JH
Time:	2.00 - 4.30 pm (The session will commence at 2:15 pm and finish promptly at 4:30 pm.)

Refreshments will be provided

All are welcome – if you attended before but would like another opportunity to meet us then please come along too.

In addition, we are intending to showcase key aspects of the service offer through a “market place” exercise. We encourage you to join us in this exercise by bringing along any stands and or resources that illustrate key initiatives that either your school or agency is in the process of delivering.

To secure a place or to contribute to the market place initiative please contact a.bishop3@nhs.net
