

ADHD in Education Level 3

(Distance Learning)

Starting September 2018

ADHD Norfolk are offering the ADHD in Education level 3 qualification. This qualification is accredited and regulated by Ofqual and combines awareness with supporting.

You **will be required** to be in a role working with or supporting individuals with ADHD to complete this course.

The course will cover the following –

- What is meant by 'attention deficit hyperactivity disorder (ADHD)' and how it is distinguished from other behavioural disorders, the characteristic features of ADHD and the common co-occurring difficulties that can be experienced by individuals with ADHD.
- The different theories relating to the causes of ADHD and how behavioural therapy and medication can be used to treat ADHD, and the common side effects of medication used to treat ADHD.
- Evaluating the different methods used to assess ADHD, outlining key differences between them. Analysing the possible physical, social, emotional and behavioural effects of ADHD on an individual.
- Evaluating the impact of ADHD on an individual's ability to participate and function in everyday activities and to engage in learning.
- Evaluating different learning support strategies, which can be used to motivate individuals with ADHD, including ways to adapt teaching and learning resources and the learning environment.
- Explaining different approaches to encouraging positive learning behaviour in individuals with ADHD, state why it is important to select and apply different strategies for different individuals.
- Summarising the different sources and types of support available to individuals with ADHD, their families and those supporting their learning.

Learning Outcomes of ADHD in Education Level 3

The Awareness element will cover:

- Understand what is meant by 'attention deficit hyperactivity disorder (ADHD)'
- Understand the causes of and treatments for ADHD
- Understand how ADHD is assessed
