

Learning to Lead Primary Mathematics

Learning to lead mathematics: the next step?

Course Outline

Effective leading of mathematics is one of the most important elements in securing high quality teaching and learning of the subject. By focusing on the role as a mathematics leader of learning, this course will help you to establish and maintain your vision, get the best out of your team and ensure high quality outcomes for pupils.

The course will help specifically identify your style as subject leader and demonstrate how to sustain it. It will explore rigorous and effective systems of monitoring and evaluation whilst sharing proven strategies for maintaining long-term progress in your department and school.

By the end of the course participants will:-

- be provided with the skills to audit, monitor and evaluate the effectiveness of Mathematics teaching and learning
- learn to recognise short term actions to make long term change in the development of a vision of mathematics to raise outcomes for all young people
- know how to demonstrate your impact and progression to senior leadership and governance.
