

Supporting Learning Poolside

This course enables school staff to work with a small group of pupils of similar ability in shallow water under the direction of the Swimming Instructor.

Course Outline

This course enables schools to decrease group sizes and provide targeted support for individuals or groups of pupils which can help increase the overall percentage of pupils to swim 25m.

This will allow the practical application of knowledge, the understanding of teaching points and effective technique. It will also allow them to review their own swimming technique and style in the practical session.

Important information:

This course is both practical and theoretical. A component of the course requires a session (approximately 1 hour) in the pool (shallow end).

- time in the pool is not a test of candidates' abilities but a chance for them to:
- experience and explore what the tasks feel like
- how the swimmer's body moves
- use the resources, floats, woggles, etc.

The rest of the course will be in the classroom.

Certificate of attendance will be issued after the event.

Phase

Primary

Audience

HLTA
Teaching Assistant
Class Teacher
NQT

Trainer

Kevin Holland

Date

05/09/2018

Time

9.30 am - 4.00 pm
