Norfolk Music Hub

What is the Norfolk Music Hub?

The Hub is an ever-growing group of organisations and schools who engage with Norfolk's children and young people in music making. These organisations share what they do, communicate with each other and are committed to the highest quality music education for children & young people.

Our vision is to release the musicianship in all children & young people by understanding and enhancing their musical capability.

We are advised by an Executive Board that meets each term to oversee the work of the lead organisation.

We are funded by the Department of Education which is administered by Arts Council England to create more opportunities for children and young people to get involved in music. Music Hubs are already working with 80% of schools in England, meaning that around one million children & young people are learning a musical instrument every week!

Follow us for information on opportunities for young musicians from a further network of other music hubs and organisations.
