

How to Teach the Primary Computing Curriculum

This course will help KS1 and KS2 class teachers who are not Computing specialists to understand the requirements of the Computing curriculum so that they can teach it in an engaging and accessible way.

The course will:

- identify the key issues arising from the 2014/15 curriculum changes
- explore computational thinking
- eliminate anxiety over programming
- set up assessment processes to support the curriculum
- signpost to activities and lesson plans that can be used in class.

By the end of the course participants will:-

- fully understand the requirements of the computing curriculum
- understand progression between KS1 and KS2
- feel confident in their understanding of and ability to teach computing
- feel confident in using a variety of appropriate software and hardware
- look at resources to support eSafety.
