

Primary English Professional Network 2018/2019

We are proud to introduce our NEW Network offer designed to challenge subject leaders to work and learn together to bring about sustained whole school improvement in English.

NEW FOR THIS YEAR:

Delegates can also opt in to additional 'priority focus' twilights allowing them to join a 'theme track' that best suits their school needs. They will be given structured support and guidance to achieve sustainable change, as well as the opportunity to build links and collaborate with other leaders with a shared focus.

Our Professional Networks enable you to access partnerships and resources that will deliver real improvements:

We will:

- encourage debate about improvements and developments in the teaching and leading of English
- facilitate cooperation, mutual support, the sharing of resources and best practice between schools
- help develop competent and confident leaders

You will:

- keep abreast of international, national and local developments
- Be able to draw on the wider expertise of English specialists as well as colleagues from other schools

Teachers who attended this network last year have said:

"As an experienced teacher but new to the area, the network meetings make me feel very supported and 'in touch'."

"A very practical, clear approach to subject leadership."

"Feeling confident in what I'm doing, knowing that I'm following the correct procedure."

Phase

Primary
