Teaching Assistants: ICT Basics to support teaching and learning

Educator Solutions

Are your Teaching Assistants making the most of ICT to support their role?

Are your Teaching Assistants confident in supporting pupils' use of ICT?

Course Outline

This practical and hands on one day course has been designed to upskill teaching assistants in basic ICT skills. This will include enhancing their own personal ICT skills, using both Word, PowerPoint and a range of freely available tools. The day will also focus on how these skills can be used to support teaching and learning in the classroom on daily basis.

By the end of this training participants will:-

- Build capability and confidence in using different ICT tools
- Use and develop skills in Word and PowerPoint that will support day to day work in the classroom
- Use a range of freely available software to enhance personal and professional ICT skills e.g. editing photos, creating videos
- Have a bank of ideas to take back and use in the classroom
- Raise awareness of how ICT can enhance learning across the curriculum
