Talk Boost KS1 is a targeted intervention for 4-7 year old children with delayed language, including children in Reception classes. The programme is delivered in primary schools by classroom teachers and teaching assistants and provides a structured programme that boosts children's progress in language and communication by an average of 9 - 18 months after a ten week intervention.

Talk Boost KS1 training is for teachers and teaching assistants, training in pairs. It is recommended that staff attend in teacher and teaching assistant training pairs, as this is the structure that the intervention is based around. However, we can discuss your individual requirements.

Cost: £72 (including VAT) per delegate

If not already held by your setting you will need to order Talk Boost resources prior to the training directly from ICAN. All staff attending the training will also need a Participants book. Please see the Ican web site regarding Talk Boost KS1 resources (£500 for the intervention pack, £20 for Participant's book).
