Primary Computing Package

Educator Solutions

Our Primary Computing package combine in-school INSET, centre based CPD and twilight networks. Our package enables schools to have a sustained programme, which supports whole school development.

Centre Based CPD Courses

We run regular and ongoing professional learning at our professional development centre in Norwich. Our programmes focus on equipping teachers with specialist skills and knowledge that have direct applications in the classroom.

Twilight Computing Subject Leader Meetings

Each term, we will host a two hour twilight network meeting aimed at supporting Computing Subject Leaders.

CPD INSET – In school session

The package includes a CPD session in-school for up to 25 members of staff, offering support in one of the following areas:

- Online Safety update for staff
- Focus on teaching one of the three strands of the computing curriculum (Computer Science, Information Technology or Digital Literacy)
- Using iPads effectively in the classroom
- Using technology to support cross-curricular learning

All schools purchasing the Computing Package will also be entitled to a **10% discount** on any other computing related product from the Professional Development and Learning Team.
