

# Mathematics: Achieving Greater Depth in Upper KS2

**Raise the proportion of pupils achieving greater depth in Key Stage Two mathematics.**

**Enhance the opportunities for greater depth learning within your upper Key Stage Two classroom.**

## Course Outline

Explore what it means to have achieved greater depth in mathematics within upper KS2 through exploring the questions that have previously stretched our more able learners. This session will also consider how we can challenge our learners so our overall proportion of pupils achieving greater depth is raised.

## By the end of this training participants will:-

- have explored what is meant by 'greater depth.
- know how to plan for greater depth opportunities within your classrooms
- leave with lesson ideas and teaching activities which challenge our most able learners and promote greater depth thinking skills.

## Phase

Primary

## Audience

Class Teachers  
Subject Leaders  
NQTs  
Returners to Teaching  
Senior Leadership Team

## Trainer

Sarah Jay

## Date

27/02/2019
