Headteacher Briefing: Using Apprenticeships for your school staff

Since April 2017, local authority schools have paid £1m in to the Levy. In Norfolk only £100k has been spent by these schools on apprenticeship training. In April 2019, the government will begin to reclaim unused funds.

We are offering a briefing for **schools and academies** on 1st April 2019 to explore the current opportunities that exist for engaging with Apprenticeships for training your staff.

Come and hear about the opportunities there are and ask any questions that you have.

If you have a query contact
