Elklan's evidence based *Speech and Language Support for 3-5s* is a highly successful externally accredited training course which equips staff to develop key communication skills in children proved to ensure later success in school. This is the only accredited training in speech, language and communication that is aimed specifically at those working with 3-5s. The course uses interactive teaching methods, practical activities, videos and group discussion to engage learners.

The course is delivered over 10 weeks (each session lasts two and half hours). You will complete a portfolio, adding to it each week; this will help to put into practice what you learn on the course.
