

Securing Success in the KS2 Maths Tests

Use your 2019 KS2 mathematics data to have impact.

We will share everything you need to know about the KS2 Maths tests, including what to focus your year 6 teaching on, how to best prepare for the tests and how to ensure that in future years, pupils arrive in year 6 fully prepared.

You will have the opportunity to share your experiences and worries with other local schools and use best practice to overcome challenges in the mathematics curriculum.

You will be expertly guided through a tried and tested approach to improvement, which has seen numerous schools gain in their results. Using the comprehensive analysis provided, you will be supported to design a personalised strategic action plan, to help pupils make good progress in mathematics.

After the event you will receive a Raising Attainment in Mathematics Guide, which includes how to write an achievable action plan and create a sustainable model for long term impact in mathematics.

Book before the 31st August and receive this guide on the 1st September!

Delegates are advised to bring along their 2019 KS2 mathematics question level data (accessible through your school ASP Account) and a laptop.

Phase

Primary and Junior

Audience

Year 6 Teachers, Maths Subject leader, SLT, Headteachers, Executive Headteachers, Trust Directors of Improvement, Trust Directors of Primary Phase
