

# SEND Transformation Project – Workstream 1 Engagement Activity

**Norfolk**  
County Council

Come and help shape the future of SEND in Norfolk mainstream schools. As part of the SEND Transformation Programme, Workstream 1 is focused on supporting and including children and young people with SEND in their local mainstream schools. This workstream will review and revise funding arrangements, develop the workforce in schools through training and self-evaluation, and improve the clarity of access to services for schools. Your views, as school leaders, on how the future of SEND and inclusion in Norfolk can look are crucial to us working together for one inclusive education system.

We are holding two separate Engagement Events in September so please save one of the dates and book a place via SLA Online:  
[www.s4s.norfolk.gov.uk/Training](http://www.s4s.norfolk.gov.uk/Training) or email Amanda Seely who can make the booking for you.

## **If you have a query please contact**
