

Mathematics: Securing Success across KS1

Are you looking for practical and easy ways to improve attainment in KS1 mathematics?

Course Outline

Enhance your understanding of the expectations and core challenges of the KS1 National Curriculum Tests (SATs) and how to overcome these, meet fellow practitioners and identify concepts within the tests that pupils across Norfolk found challenging and leave with practical takeaways to use immediately with your pupils.

During this three-hour session you will experience:

- Detailed data analysis from the 2019 KS1 Mathematics SATs papers
- Two workshops based on 'Fluency and Number Sense' and Reasoning and Problem Solving' within KS1
- Time to reflect and formulate a mathematics action plan for your class
- Time to share your experience of the testing and compare how your class performed compared to others in Norfolk.

By the end of the session delegates will:

- Know and understand the key headline data from KS1 tests
- Be clear about what actions need to be taken to prepare your class for the expectations of the KS1 tests
- Have ideas and activities to take away and use immediately.

Phase

Primary

Audience

Primary Teachers
Teaching Assistants
