

# Primary English Professional Network 2019/2020

**Our Professional Networks enable you to access partnerships and resources that will deliver real improvements.**

## Course Outline

We are proud to introduce our NEW Network designed to challenge subject leaders to work and learn together to bring about sustained whole school English improvement.

## NEW for this year:

Delegates will be able to access additional 'priority focus' webinars allowing you to benefit from the focussed support of subject experts in areas which best meet your school's priorities. Acting like an English subject leader's surgery, delegates will be able to ask subject specialists their specific questions and benefit from the response of a community of other schools.

## English Networks:

- give structured support and guidance to achieve sustainable change in English
- provide the opportunity to build links and collaborate with other leaders with a shared focus.
- encourage debate about improvements and developments in the teaching and leading of English
- facilitate cooperation, mutual support, the sharing of resources and best practice between schools
- help develop competent and confident leaders through upskilling subject knowledge, providing teaching inspiration and guiding subject leaders through the demands and requirements of the role.

## Through attending you will:

- keep up to date with what is new in English and the wider educational landscape
- be able to draw on the wider expertise of English specialists as well as colleagues from other schools
- have access to materials and training to support you in your role as subject leader
- benefit from teaching and resource ideas to take back to school

## Phase

Primary

## Audience

English Subject Leaders

## Trainer

Sara Matthews

## Dates

13/11/2019

11/03/2020
