### Overview

This half-day course will be an opportunity to learn from Speech and Language Therapists about SLCN in the Early Years Foundation Stage. You will explore ways to audit, identify and support children in your setting as well as how to implement general strategies and targeted interventions. You will learn practical ways to develop your children's speech, language and communication development.

Over lunch there will be time to network with representatives from local charities and companies, to learn about how their services can support your staff and the young people and families that you work with.
