

Where Nature helps you to learn, naturally!

Fairhaven Woodland and Water Garden has been described as 'a little slice of heaven'. A place where we have worked with nature to create a beautiful haven - far from the modern world.

Our **Education Team** love to welcome children, of all ages, and help them explore this special place. Together we can plan a visit that your children will never forget.

Our experienced and friendly team can deliver activities to support your curriculum learning in school, give the children a day of guided 'wild play', or to show them a precious route into wellbeing and creativity by getting closer to Nature.

At £5.50 per child (adults are free); this could be the day that your children benefit from long beyond the trip itself.

Please get in touch with Lee Cozens (Education and Wildlife Officer)
