

We welcome **any Primary schools in Norfolk** to attend this free, online session! You **do not** need to be working with Angles Maths Hub currently in order to attend.

Supporting Maths Teaching and Learning in Norfolk Primary Schools

An interactive, online meeting to support Maths Teaching and Learning in Norfolk Primary Schools.

Angles Maths Hub is pleased to offer all Head teachers/subject leads/teachers in Norfolk, a free, online meeting to support Maths teaching and learning during the current situation in schools. In addition, the session will discuss longer term support to schools during Covid-19 recovery, including free, CPD opportunities available from the Angles Maths Hub from September. This also includes an opportunity to learn more about how the Shanghai experience has transformed a Mastery Specialist's teaching in the classroom.

This interactive session will take place in real time using online meeting software. Through a short but effective meeting, the workshop will include live discussion, questions and answers and accompanying slides focusing on:

1. New, free and exciting resources to support maths learning both at home and in school
2. Support for Covid-19 recovery and wider opportunities through Angles Maths Hub
3. Lessons from Shanghai: the opportunity to hear from a Mastery Specialist, whose teaching has been transformed following participation in the NCETM England-China Exchange programme this year!
4. Question and Answer session

3 dates available	26th June 14.00 - 14.40
	1st July 10.00 - 10.40
	6th July 11.00 - 11.40

National Centre
for Excellence in the
Teaching of Mathematics
