

Primary Maths Support: The 2020 National Curriculum Guidance and Beyond with Angles Maths Hub

Supporting primary teachers and leaders in Norfolk and Suffolk to develop maths teaching and learning, in light of the National Curriculum Guidance Document.

Angles Maths Hub is excited to host an additional series of short, online sessions, building on our original series regarding the DfE National Curriculum Guidance Document. This new series of sessions will offer schools the opportunity to learn more about the new supporting materials available to enhance the implementation of the Guidance Document.

The sessions will also provide details of ongoing, free professional development, offered by Angles Maths Hub, to support primary school teachers and leaders in improving maths teaching and learning across their school. We will also focus on how the programmes support Covid-recovery and curriculum prioritisation plans.

**All sessions are repeated and will run
4.00-4.30pm on the following dates:**

Friday 25th September
Monday 28th September
Tuesday 29th September
Friday 2nd October

How to book:

To reserve your free place at one of the sessions, follow [this link to our Eventbrite page](#).

Places are limited, so early booking is advisable.
