

Supporting Primary Mathematics in Breckland

As part of our ongoing online support, Angles Maths Hub is delighted to offer primary schools in Breckland **free and invaluable online training**.

This short, 30 minute session will comprise the following three elements:

- A taster on the **effective use of manipulatives and representations**. This forms a key part of a mastery approach to the teaching of mathematics.
- An overview of the **DfE Mathematics Guidance Document (2020)**. This publication identifies the most important conceptual knowledge and understanding that pupils need as they progress from year 1 to year 6.
- A brief summary of the extensive **free support available through Angles Maths Hub**.

If you are new to Angles Maths Hub, we promote excellence in mathematics teaching in Norfolk and Suffolk and we form part of the national network, led by the National Centre for Excellence in the Teaching of Mathematics and funded by the DfE.

Session dates:

Tuesday 6th October from 4:00-4:30pm

Monday 12th October from 4:00-4:30pm

Wednesday 14th October from 4:0-4:30pm

To reserve your free place, [follow this link to our Eventbrite page](#). Places are limited, so early booking is advised.
