

## Free autism awareness training!

The Norfolk All Age Partnership, Norfolk and Suffolk NHS Foundation and Norfolk County Council have created and developed an **Autism Awareness eLearning** course to increase understanding of autism across Norfolk.

The training is in line with the **Autism Act (2009)** and gives a general overview of what autism is, how it can affect people in different ways and how to successfully engage with, support and understand autistic people.

This successful training can now be accessed via the Norfolk All Age Partnership's **new** website:

<https://www.norfolkautismpartnership.org.uk/autism-awareness/>

Please share this training with your colleagues, stakeholders and partner organisations.

Norfolk County Council also have another training package called **Understanding Autism**, which delves deeper into the topics explored within the eLearning. If you are interested in accessing the Understanding Autism course, or have any questions about the Norfolk All Age Partnership, please email [autism@norfolk.gov.uk](mailto:autism@norfolk.gov.uk)

**Let's work together to spread Autism Awareness across Norfolk!**
