

Assessing and Preparing for Progression in English and Mathematics

Feel prepared and confident in how to effectively get pupils back on track for next year, through assessment and preparation when all pupils return to school and through the summer term.

Each package will provide a guidance document and a live webinar focusing on useful advice for either Primary English or mathematics teaching. Assessment is key to developing a summer plan and to uncover knowledge gaps, which have developed through the recent and preceding lockdowns. The guidance document and accompanying webinar will recommend effective formative assessment approaches to establish the core areas of focus for teaching in the summer term. You will also be advised on how to design a summer term plan and ideas for teaching these key areas of the curriculum.

Book your place now:

Maths: Tuesday 16th March (16:00–17:00)

www.s4s.norfolk.gov.uk/Event/135798

English: Wednesday 17th March (16:00–17:00)

www.s4s.norfolk.gov.uk/Event/135801

(By signing up to the live webinar, you will automatically receive a copy of the Guidance document)
