

# EYFS Early Adopter Agreement Trialling

To support early adopters in making accurate assessments using the revised EYFS Profile, we are offering a series of agreement trialling style events to support teachers in discussions about judgements across the areas of learning, using evidence bases common to all. This process of benchmarking will support teachers in making more confident judgements of the attainment of children in their own classes.

**The training package will consist of:**

- 3 **online meetings** of organised discussions relating to:
  - Communication and Language Development, and Literacy
  - Maths and Understanding the World
  - Physical Development, Personal, Social and Emotional Development and Expressive Arts and Design
  - A set of **online resources**

**Outcome:**

- Explore evidence bases from across the curriculum
- Discuss the aspects that define the judgement made for each and the next steps in learning
- Understand how to apply the benchmarking activity to own evidence bases

**Audience:**

Reception class teachers with Year 1 receiving teachers
