

Moving Forward in Primary Mathematics with Debbie Morgan

Angles Maths Hub is thrilled to welcome back Debbie Morgan, NCETM Primary Director, to lead a free, online session focusing on moving forward in the new academic year.

This unique opportunity, aimed at primary school teachers and leaders within the Angles Maths Hub area, focuses on primary mathematics development, in light of the impact on teaching and learning during the Covid-19 pandemic.

Debbie will look at moving forward into the new academic year, how to make the best of this year and how to give our pupils the best learning in primary mathematics. Debbie will share practical resources and PD opportunities to support the curriculum.

The one-hour session will also include time for Q & A with Debbie and the opportunity to find out more about how Angles Maths Hub can continue to support you and your school with primary mathematics development.

This session will take place on:

Monday 13th September, 4-5pm

As we would like to reach as many schools as possible within the Angles Maths Hub area, we ask that schools sign up just once for the event. If you wish to join as a school group, please reserve one free ticket and join the session using one device.

We warmly welcome both schools already working with Angles Maths Hub and those new to the Hub.

How to book:

To reserve your school's free place at one of the sessions, [click here](#) to visit our Eventbrite page.

Places are limited, so early booking is advisable.
