

VISIT LEADERSHIP OF CURRICULAR SWIMMING LESSONS

HALF DAY DELIVERY MODEL

This course supports the deployment of anyone other than a qualified teacher to act as a visit leader when taking children to swimming lessons off-site. In this way headteachers can be confident that their school is fulfilling its responsibility for safe swimming provision.

The course will ensure that delegates understand their role and responsibilities when taking pupils to swimming lessons. They will be guided to assess their schools current provision, and in liaison with their Educational visits coordinator (EVC), to confirm their school complies with national and local guidelines.

Important Info: This is a theory based course and does not include pool time

COURSE DELIVERY

The course will be delivered in an interactive online session to minimise disruption in school / reduce costs for school.
