The Julian Teaching School Hub is delighted to be working with the Teacher Development Trust (TDT) and Educate Norfolk on this exciting programme, based on the best available evidence about what makes an effective Headteacher.

The programme will consist of five structured, unassessed one-to-one coaching sessions with an experienced system leader.

In between these sessions, the whole ASO cohort will be welcomed into local settings to help them understand school leadership in different contexts, and form supportive peer networks.
